MICROPOINT

qLabs[®] ElectroMeter Plus

for Professional Point of Care

Diagnostics on Demand for POC Handheld Rapid Testing Platform

Features

- On board quality controls
- Fingertip blood sample of 10 µL
- Reliable laboratory quality results in less than 7 minutes
- External liquid QC (LQC) available
- High isolation between channels for high precision
- Built-in temperature controlled testing
- eStation for printing and connectivity
- Built-in barcode scanner
- No calibration or instrument manipulation needed

Current Test Menu

- PT
- aPTT
- PT/aPTT Combo

ABOUT MICROPOINT

Micropoint Bioscience, Inc. is a global provider of Point of Care Testing (POCT) systems and solutions. We are improving patient care by providing rapid, accurate, reliable, and low cost diagnostic products. Micropoint's patented microfluidic technologies and three proprietary POCT platforms enable testing at the same high quality level as a central lab, but with improved speed and convenience. Micropoint's products are manufactured in cGMP and ISO 13485 certified facilities.

Interface Display Barcode scanner	2.1 inch 128x96 LCD Laser class 2 according to EN 60825-1:2007
Software Language	Multi-language menu
Memory Capacity Patient records	Stores up to 200 patient records and 12 QC results
Performance Measurable Range	INR between 0.5 to 7.5 APTT from 20 sec to 420 sec
Specifications Dimensions Weight Operating conditions Power supply	135mm x 65mm x 34.5mm (L x W x H) 154 g (Without Batteries) Temperature: 10 °C - 35 °C Relative humidity: 10 % - 90 % 100V-240V AC 4 X AA batteries
